**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: nonelected claims 15-18 without traverse have been canceled.

### **REASONS FOR ALLOWANCE**

2. Claims 12-14 and 19-23 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, the combination of (a) a film carrier comprising circuit pattern formed on a resin film and (b) the liquid crystal driver is mounted on the liquid crystal panel by a light shielding resin disposed on the liquid crystal panel so as to cover one end of the film carrier and side surface of the liquid crystal driver [claims 12-14, 19]; and a diffusion sheet located at the displaying side of said liquid crystal display panel, wherein the diffusion sheet is composed of a light diffusing area and a light absorbing area located on the outer periphery thereof, the light diffusing area serving to diffuse illumination light from a light source to the liquid crystal display panel, and the light absorbing area serving to absorb the extraneous light incident on the liquid crystal driver [claims 20-23].

Yamaguchi discloses a liquid crystal display device having external light shielding members for shielding from external driving circuits/drivers. However, Yamaguchi fails to disclose (a) a film carrier comprising circuit pattern formed on a resin film and (b) the liquid crystal driver is mounted on the liquid crystal panel by a light shielding resin disposed on the liquid crystal panel so as to cover one end of the film carrier and side surface of the liquid crystal driver [claims 12-14, 19]; and a diffusion sheet located at the displaying side of said liquid crystal display panel, wherein the diffusion sheet is composed of a light diffusing area and a light absorbing area located on the outer periphery thereof, the light diffusing area serving to diffuse

illumination light from a light source to the liquid crystal display panel, and the light absorbing area serving to absorb the extraneous light incident on the liquid crystal driver [claims 20-23].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
